

Year 1

Science: Seasonal Changes (half-term)

Learning to Recap (FS):

- Language of hot, cold and warm
- That is it is light during the day and dark at night

Godmanchester
Community Academy

New Knowledge and Vocabulary

Season	Part of the year with a different type of weather. We have seasons because the Earth is tilted .
The four seasons	Spring, Summer, Autumn and Winter. Each season is 3 months long. Different parts of the world have different types of weather in different seasons.
Weather	What it is like outside! It could be hot/cold, dry/raining, sunny/cloudy. The type of weather often depends on the season.
Temperature	How hot or cold the weather is. Temperature is linked to the season.
Earth year	An Earth year is 365 days. This is how long it takes for the Earth to orbit the sun.

Weather in the four seasons

Because, but

We have different seasons because...

Our planet Earth

Application of knowledge

Create a fact file about countries with different climates.

Paint images of seasons
